## Features

Print to AccuRoute allows users to print any document to the AccuRoute PDF printer, which makes a .pdf version of that document. Then the system opens the .pdf file in either the AccuRoute Desktop or Web Client, where it is available to be sent to recipients or addresses, just like any other message.

With Print to AccuRoute, users can take advantage of AccuRoute messaging capabilities for file formats not typically supported. The Print to AccuRoute installation offers two choices:

- Print to AccuRoute Desktop
- Print to AccuRoute Web Client
