► When you create a Routing Sheet for Open Text Document Management, eDOCS Edition (eDOCS DM), AccuRoute creates a placeholder for the document. Never open, edit, or delete this placeholder.

- 6 Add content to your message.
- Locate the **Content** section at the bottom and type a subject and comments.
 - Add any attachments you want to send with your message. Click the paperclip icon and do one of the following:

File - Select this option to attach a file saved from your computer or network share. Go to the file, select it, and click **Open**. The file appears in the attachments list.

Web document - Select this option to attach a web page from the Internet. Type the address of the web document, choose a file name for the attachment,

- 7 Do any of the following:

Send the message immediately - Click **Send** on the toolbar. A message box indicates that your message has been sent to the server. (Your message must have at least one attachment.)

Save the message as an Embedded Directive - Click **Save ED** on the toolbar, type a title for the Embedded Directive, and click **Save**.

Print a Routing Sheet that can be scanned with hard copy documents - Save the message as an Embedded Directive. Then click **Print RS** on the toolbar. AccuRoute Desktop creates a Routing Sheet containing the Embedded Directive and displays it as a PDF file on your desktop. Print the Routing Sheet and include it as the first or last page of the hard copy document. Take the document to a network scanner and scan it using the instructions provided by your network administrator. (Your message can include both electronic and hard copy documents.)
