Do not select a Private Profile Group. Doing so will store the document on your local workstation rather than on the network.

For information on using billing, consult the AccuRoute Desktop User Guide or your system administrator.

When the upload is complete, a destination appears in the message.

▶ When you create a Routing Sheet for WORLDOX, AccuRoute creates a placeholder for the document. never open, edit, or delete this placeholder.

- 6 Add content to your message.
  - **a** Locate the **CONTENT** section at the bottom and type a subject and comments.
  - b Add any attachments you want to send with your message. Click the paperclip icon and do one of the following:

**FILE** - Select this option to attach a file saved from your computer or network share. Go to the file, select

it, and click **OPEN**. The file appears in the attachments list.

**WEB DOCUMENT** - Select this option to attach a web page from the Internet. Type the address of the web document, choose a file name for the attachment, select a file format for this attachment (such as PDF or HTML), and click **OK**.

7 Do any of the following:

**Send the message immediately** - Click **SEND** on the toolbar. A message box indicates that your message has been sent to the server. (Your message must have at least one attachment.)

Save the message as an Embedded Directive -Click SAVE ED on the toolbar, type a title for the Embedded Directive, and click SAVE.

Print a Routing Sheet that can be scanned with hard copy documents - Save the message as an Embedded Directive. Then click **PRINT RS** on the toolbar. AccuRoute Desktop creates a Routing Sheet containing the Embedded Directive and displays it as a PDF file on your desktop. Print the Routing Sheet and include it as the first or last page of the hard copy document. Take the document to a network scanner and scan it using the instructions provided by your network administrator. (Your message can include both electronic and hard copy documents.)
